NATIVE AMERICAN ASSOCIATION.

Preamble and Constitution of the Native American Association of the United States.

Whereas it is an admitted fact that all Governments are not only capable, but bound by all the principles of national preservation, to govern their affairs by the agency of their own citizens; and we believe the republican form of our Government to be an object of fear and dislike to the advocates of monarchy in Europe, and for that reason, if for none other, in order to preserve our institutions pure and unimpaired, we are imperatively called upon to administer our peculiar system free of all foreign influence and interference. By admitting the stranger indiscriminately to the exercise of those high attributes which constitute the rights of the native born American citizen, we weaken the attachment of the native, and alienate the rights of the foreigner. The rights of the American, which he holds under the Constitution of the Revolution, and exercised by him as the glorious prerogative of his birth, are calculated to stimulate a nation, condense to strength, and cement in sentiment and patriotic sympathy.

Basing, then, the right and duty to confederate on these high truths, we profess no other object than the promotion of our native country in all the walks of private honor, public credit, and national independence; and therefore we maintain the right, in its most extended form, of the native born American, and he only, to exercise the various duties incident to the ramifications of the laws, executive, legislative, or ministerial, from the highest to the lowest post of the Government; and to obtain this great end, we shall advocate the entire repeal of the naturalization law by Congress. Aware that the Constitution forbids, and even if it did not, we have no wish to establish ex post facto laws; the action we seek with regard to the laws of naturalization, is intended to act in a prospective character. We shall advocate equal liberty to all who were born equally free; to be so born, constitutes, when connected with moral qualities, in our minds, the aristocracy of human nature. Acting under these general principles, we further hold, to be a permanent principle, that a united and bound together by sympathies, the result of a common political origin; and to be national, we must cherish the native American sentiment, to the entire and radical exclusion of foreign opinions and doctrines introduced by foreign paupers and European political adventurers. From Kings our gallant forefathers won their liberties—the slaves of Kings shall not win them back again.

Religiously entertaining these sentiments, we as solemnly believe that the day has arrived, when the Americans should unite as brothers to sustain the strength and purity of their political institutions. We have reached that critical period foreseen and prophesied by some of the clear-sighted apostles of freedom, when danger threatens from every ship that floats on the ocean to our shores; when every wind that blows wafts the ragged paupers to our cities, bearing in their own persons and characters the elements of degradation and disorder. To prevent these evils, we are now called upon to unite our energies. To fight over this great matter, to unite our energies, to our self-reliance, to be the duty of the sons of these wars, and we must go into the combat determined to abide by our country; to preserve her honor free from contagion, and her character, as a separate people, high and above the engraftment of monarchical despotisms.

ARTICLES OF THE CONSTITUTION.

First. We bind ourselves to co-operate, by all lawful means, with fellow native citizens in the United States to procure a repeal of the naturalization law.

Second. We will use all proper and reasonable exertions to exclude foreigners from enjoying the emoluments or honors of office, whether under the General or State Governments.

Third. That we will not hold him guiltless of his country's wrong who, having the power, shall place a foreigner in office while there is a competent native willing to accept.

Fourth. That we will not, in any form or manner, connect ourselves with the general or local politics of the country, nor aid, nor be the means of aiding, the cause of any politician or party whatsoever, but will exclusively advocate, stand to, and be a separate and independent party of native Americans, for the cause of the country, and upon the principles as set forth in the above preamble and these articles.

Fifth. That we will not, in any manner whatever, connect ourselves, or be connected, with any religious sect or denomination; leaving every creed to its own strength, and every man untrammelled in his own faith; adhering, and every man untrammelled, to the sole cause of the natives, the establishment of a national character, and the perpetuity of our institutions, through the means of our own countrymen.

Sixth. That this Association shall be connected with and form a part of such other societies throughout the United States as may now or hereafter be established on the principles of our political creed.

Seventh. That the Association shall be styled the "Native American Association of the United States."

Eighth. That the officers shall consist of a President, Vice President, Council of Three, Corresponding Secretary, Recording Secretary, a Committee on Addresses to consist of three members, a Treasurer, and such others as may be required under any by-laws hereafter adopted, and whose duties shall be therein defined.

Ninth. That all the foregoing officers shall be elected by this meeting, to serve for one year, except the Committee on Addresses, which shall be appointed by the President.

Tenth. That the President, or, in his absence, the Vice President, or, in the absence of both, the Corresponding or Recording Secretary, is authorized to convene a meeting of this Association whenever it may be deemed necessary.

THE NEW YORK LIFE Insurance and Trust Company has a capital subscribed of one million dollars, but in consequence of being the depository of the Court of Chancery, and of the Surrogate Court of the State of New York, as well as of individuals the business means have increased to upwards of five millions of dollars, as appears by a report of the Master in Chancery, dated 23d of May, 1835.

To persons in public employment, who receive fixed salaries, an Institution like this affords a certain mode of securing a sufficient sum for their families at a future day; and if the object of a parent, besides that of merely making a living, is to accumulate something for the support and education of those who may be left behind, it can be realized in this way, without exhausting those energies of mind and person which are usually necessary through the ordinary struggles of life.

A person aged 30 years, whose income is \$1,000 per annum, may, by the appropriation of \$118 a year, secure to his children \$5,000, even if he should die the next day. A husband 30 years old, may provide \$500 for his wife by paying annually the small amount of \$11 80. At 45 years old, a clerk may create a saving fund of \$1,000, for the payment of his debts, by the annual premium of \$37 30. At 60, the same amount may be secured during a period of seven years, for the yearly payment of \$49 10.

In the minor offices of the public service, experience has shown that the salaries are not sufficient to enable the incumbents to lay up any thing, even the infinitesimals of age, much less for the maintenance of those who survive. The labors of thirty years, are, therefore, productive of only the support of the day, and there are many sensitive and anxious hearts who live for the happiness of their families, that are harassed for years by the dreadful apprehensions of future want.

For such, a Life Insurance Company holds out relief gives reality to hope, and by the small economy of a few dollars per month, puts the mind at ease, and affords the means of securing it to others.

The preliminaries for effecting Insurances are very simple, being merely a declaration of age, health, and other particulars set out in the forms of the office, together with a statement of the physician and friend of the applicant upon some of the same points, the blanks for which will be furnished by the agent in Washington city.

As the design of the company is profit on the one side and protection to the other, and its means are directed to that end, it only requires a reciprocity of good faith, to produce the mutual result of strength to itself and security to its customers.

Officers in the Navy will also be insured, either for shore or sea duty; the latter service, however, being with an additional premium, which will depend upon the latitude and climate of the voyage.

Insurance will be made for one year, or any period within seven years, or for life, the premium varying, in either case, according to the term. The risk of the company will commence with the date of the policy; but no Insurance will be considered valid until the policy is delivered to the insured. Full information will be given upon application, post paid, to

CONSUMPTION!

DR. RELFE'S ASTHMATIC PILLS have, from their extraordinary success in giving instant relief, and in curing Coughs, Croup, Asthma, Difficulty of Breathing, Wheezing, Tightness of the Chest, Pain in the Side, Spitting of Blood, Chillsiness and Shiverings that precede Fevers and Lung Complaints generally! become one of the most popular Medicines known, and are sought after from every part of the country, on account of the astonishing success which has attended their administration.

In the above complaints, frequently curing the most obstinate cases, and giving the most unexpected relief, after every other remedy has failed, and persons had given themselves up in despair of a cure!

They have been known to cure persons supposed to be far gone in consumption, and exhibiting all the appearance of approaching dissolution.

And such have been the salutary effects of these Pills, even in hopeless cases, as so far to mitigate the sufferings of the patient, as eventually to prolong life for days, and give to it a positive comfort they never expected to enjoy.

The operation of the pills is wonderful in easing respiration, quieting the cough, and procuring comfortable rest.

Common colds are frequently removed in a few hours. (If a person speaking of these Pills) my wife has tried various medicines of the first celebrity, for an Asthmatic difficulty, (or affection of the lungs,) which at times was exceedingly distressing, confining her to her house for days and weeks together, she finds nothing gives her the relief which Relfe's Asthmatic Pills do—easing her respiration, quieting her cough, and giving her comfortable rest. This is the testimony of hundreds or thousands. The relief which aged people, as well as others, experience from the use of these Pills, is truly astonishing, and renders them invaluable to many, and are in fact, an essential auxiliary to their cure, and almost to the existence!

(3) A Physician informs the Proprietor, that a gentleman in the country observed to him, he had reason to believe the use of these Pills had been the means of saving his life.

Price—whole boxes, 30 Pills, \$1; half do. 12 Pills 50 cents.

Prepared by Thompson Ridder, Boston, and for sale at TODD'S Drug Store.

GARLEANT'S BALSAM OF HEALTH

PREPARED ONLY BY JOHN S. MILLER, Frederick City, Maryland.

THIS valuable medicine has only been introduced to the public about five years. In various parts of the country, and hundreds of persons have used it, and found it beneficial effects, and seven out of ten cases have been permanently cured of the Dyspepsia, Cholera, Nervous Tremors, Lowness of Spirits, Palpitation of the Heart, and all those train of diseases resulting from a disordered condition of the stomach and liver, or derangement of the digestive functions, such as general debility or weakness, flatulency, loss of appetite, sour eructations and acidities of the stomach, costiveness, head ache, jaundice, flatulent and bilious colic, &c.

The Proprietor does not recommend it as most patent medicines are, as a cure all, and when used is found wanting, that the public have got so much deceived, that they can scarcely be prevailed upon to try any more, which is not the case with this Balsam of Health, as hundreds of persons have received the most happy and good effects, which the Proprietor can produce, if required, the testimony of many respectable persons, that have been cured of the above diseases.

The Proprietor requests all those persons that are afflicted in the way above described, to give his medicine a fair trial, and he assures them that they will not be disappointed.

The Public will find it for sale—wholesale and retail—at TODD'S Drug Store.

FROM AN OHIO PAPER.

DEAFNESS.—MR. PRINTER: There is a man residing in Bethlehem, Pennsylvania, who pursues a new plan of restoring hearing and eyesight.

By taking his advice people will find themselves so easily getting well; so easily getting cured; that they'll almost be at a loss to tell how.

They'll almost be at a loss to know how their afflictions were overcome, and they restored to health and happiness again.

Why, friend reader, the regaining of health and of such blessings to those who had the misfortune to lose them, can never be paid with gold and silver and worldly things.

Indeed, the recovery of such blessings is invaluable; and when people get their hearing and eyesight again, let them offer up prayer to God, and not to man. For it is to Him that praise is due, and not to the physician.

The farmer giveth seed to the earth, but a kind Providence giveth harvest.

So, on similar principles, the physician giveth remedy to the sick, but that same kind Providence giveth health. Let us be thankful.

A letter below will make known to applicants the nature of help, and that for a fee of five dollars 'tis sent by mail free of postage. And if any additional help—any additional mental help—should be wanted, 'twill be sent on without any further charge.

The fee is merely considered a recompense for the doctor's time and mental labor.

More he doth not want.

And that which people get in return will be of more value to them than one hundred dollars of such dollar fees; and as a corroboration of the above, we annex a letter from G. W. Ellis to Dr. Green:

Dear Friend, Some three years since I made application to you to restore my hearing and eyesight, and at the same time for a friend of mine, Mr. Norton, (caro.) who was afflicted with a great degree of deafness. I mention these circumstances to bring the matter fresh to your mind. We received your remedy, followed the prescriptions, and were soon restored to the use of our ears and eyes; our general health, also, improved in the mean time, by the excellent advice you gave us on the subject of health and long life.

A young man applied to me a few days since for information—he is afflicted with weak eyes—medical men here, in our parts of the world, tell him that the optic nerve is weak. I immediately referred him to you as the only man within the circle of my acquaintance who could give relief in such cases; and he not conveniently able to write, I concluded to write myself, and at the same time enclose the customary five dollar fee and request that which is necessary will quickly be sent on.

Be kind enough to send me one of your pamphlets on the subject of health, temperance, and long life.

Yours, in friendship, G. W. ELLIS, P. M.

Granville, Ohio, Sept. 10, 1838.

To Dr. GREEN, Bethlehem, Pa.

The Editor is informed that all printers who will publish the above will receive the remedy gratuitously.

IMPROVED SURGEON'S TRUSSES, for the radical cure of Hernia, or Rupture, by HEBER CHASE, M. D., Philadelphia.

The committee of the Philadelphia Medical Society for the investigation of the radical cure of Hernia, observe:

"Fully impressed with the extreme caution required in forming conclusions concerning changes of structure taking place in parts of the body concealed, not only by the integuments, but by tendinous matter and fascia, and where the nature of the disease renders the opportunity of post mortem examination exceedingly rare, your committee has been desirous to avoid that blameable haste in the decision of important questions which has too frequently given to plausible but ingenious methods of treatment a temporary reputation, to the abuse of public confidence and the injury of the profession, by granting to empiricism the weight and influence of great names."

"The instruments of Dr. Chase have effected the permanent and accurate retention of the intestines in every case of hernia observed by the committee, without material inconvenience to the patient, and often under trials more severe than are usually ventured upon by those who wear other trusses—trials which would be imprudent with any other apparatus known to the committee."

"The committee are induced, by the foregoing conclusions, to recommend, in strong terms, the instruments of Dr. Chase to the confidence of the profession, as the best known means of mechanical retention in hernia, and as furnishing the highest chance of radical cure."

"They have no hesitation in saying that, were they individually affected with this terrible disease, they would resort to this method of treatment, with the triple view of securing their comfort, safety, and ultimate chance of recovery."

REYNELL COATES, M. D., WM. ASHMEAD, M. D., ISAAC PARRISH, M. D., Committee.

"All must now admit of the radical cure of Hernia, and that Dr. Chase's Trusses are decidedly the best yet
